Dear Jodi Bigler,

Dear Valued Customer,

You are now complete with the interconnection process and may live your system. Please reach out to your Developer if you have questions regarding your solar system. If your Net Metering portion has been approved, it will be completed shortly. If you have not yet applied for Net Metering, please do so now by going to www.comed.com/Interconnection and select "Net Meter" as application type.

Congratulations on making the switch to renewable energy! Under the Climate and Equitable Jobs Act(CEJA), the Distributed Generation (DG) rebate incentive is available to all ComEd customers. To determine your eligibility and review the terms and conditions, please contact the DG Rebate team at ComEd.DGRebate@dnv.com or call (833) 688-7730.

Thank you
Jordan Abdullah

Dear Jodi Bigler,

You have now completed the net metering process. Net Metering will become effective on your account at the time you received permission to operate. If you have any additional questions please contact net metering at 800-825-5436 or GPCTeam@comed.com. CAUTION: The addition of an energy storage device requires proper notification to the Company. Installing and operating an energy storage system without proper notification creates a potential safety hazard and may result in disconnection of electric service. Thank you, Jordan Abdullah
